SUMMARY

Full-Stack Developer specialized in React/Next.js and Node.js/NestJS, experienced in building and deploying production-ready applications using Docker and CI/CD. Passionate about scalable architectures and modern web technologies, currently seeking an internship or part-time/junior opportunity to contribute to impactful real-world projects.

EDUCATION

ESSAT Gabès Gabès, Tunisia
Bachelor's Degree in Business Information Systems — With Honors 2022 – 2025

EXPERIENCE

Full-Stack Developer January 2026 – Present
Freelance Remote

Delivered 4 client projects (web, mobile, scraping) deployed in production using Docker and VPS.
Set up CI/CD pipelines, containerization with Docker and deployment on VPS using Nginx.
Built web scraping scripts for automated data collection and processing.
Technologies: Next.js, React, Node.js, Express.js, PostgreSQL, Docker, CI/CD, Nginx, VPS.

Full-Stack Developer February 2025 – June 2025
Final Year Project (PFE) at Laghazala du Désert Gabès, Tunisia

Built a MERN platform for eco-tourism circuit management with interactive maps and dynamic filters.
Integrated external APIs (weather, smart recommendations) improving user engagement and retention.
Technologies: React.js, Node.js, Express.js, MongoDB, JWT.

Web Developer — Intern July 2024 – August 2024
Groupe Chimique Tunisien (GCT) Gabès, Tunisia

Developed a Python/Node.js tool automating XML file generation from Excel spreadsheets.
Automated XML generation tool that reduced data entry time by 70% for a team of 5 at GCT.
Participated in requirements analysis and technical solution design.

PROJECTS

Eventify — Event Booking Platform (Freelance) | *Node.js · PostgreSQL · React.js · Flutter · Stripe*
Full-stack event management platform (web + mobile) with JWT authentication, Stripe payments, OTP verification (Twilio), and admin dashboard. Deployed with scalable backend and secure payment integration.

Real Estate Investment Platform (Freelance) | *Next.js · Node.js · PostgreSQL*
Web platform connecting investors with high-yield real estate opportunities, featuring onboarding flows, dynamic forms and an admin dashboard for lead management.

Universal Web Scraper (Freelance) | *Python · BeautifulSoup · Scrapy · Selenium · Pandas*
Universal scraping tool auto-detecting static and dynamic websites, extracting text, links, tables, images and documents with automatic data cleaning and structuring via Pandas.

Medical Implants Company Website (Freelance) | *Next.js · React · Node.js · Docker*
Professional website with optimized landing page, detailed technical product catalog and dynamic quote request system.

SaaS Landing Page — Property Management (Freelance) | *React.js · Next.js · NestJS · PostgreSQL · Docker*
Conversion-focused SaaS landing page with user management (JWT auth), dynamic property estimation form, reusable components and responsive design.

EcoTourisme TN (Final Year Project) | *React.js · Node.js · Express.js · MongoDB · JWT · Weather API*
Sustainable tourism platform for Tunisia with interactive hiking map, circuit booking, multi-role management (admin/traveler/supplier) and real-time weather integration.

TECHNICAL SKILLS

Front-End: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Angular, Bootstrap, Tailwind.
Back-End: Node.js, Express.js, NestJS.
Mobile: Flutter, Dart, Android Studio, Firebase.
Databases: PostgreSQL, MongoDB, MySQL.
DevOps: Docker, GitHub Actions (CI/CD), Nginx, VPS, AWS.
Security: JWT, SSL.
Tools: Git, GitHub, VS Code, Postman, XAMPP, Figma.
